

TECNA: Intelligent welding in car body repair

This wide range is composed of:

- Hand-operated welding equipment for steel and aluminium studs (and pins) with capacitor discharge generators.
- Spotter with built-in transformer, 0.8kVA at 50%.
- Cable Spotter, 5 kVA at 50%.
- Hand-operated spot guns (with built-in transformer), 2-6 kVA at 50%
- Single-phase cable spot welders on trolley, 8 kVA at 50% (which can be equipped with either manual or pneumatic guns, with either single or double program welding control unit).
- Single-phase cable spot welders on trolley, 10kVA at 50% (which can be equipped with water cooling, pneumatic guns, double program digital control unit).
- Rocker arm spot welders, foot and air-operated, 16-25 kVA at 50%.
- Last generation inverter technology (low energy consumption) cable spot welders, 25 kVA at 50%: equipped with built-in transformer guns (18 kVA at 50%) and touch-screen welding control unit. Also, they can be equipped with either "X" or "C" pneumatic guns, exchangeable arms, water-cooled single-sided gun.

Tecna spot welders are approved and homologated by the best Car Manufacturers for being used in authorised car body shops.
